Digital Product Licence

Ellie B Creations
Last updated: 10th September 2026

This licence applies to the small selection of digital products sold by Ellie B Creations, including digital files supplied for a personalised order. It does not turn a physical product purchase into a digital purchase or give access to its design files. Please read it alongside the product listing, our Terms & Conditions and our Returns & Refunds Policy.

1. Your licence

When you purchase a digital product, Ellie Burnett trading as Ellie B Creations grants you a personal, non-exclusive, non-transferable licence to use the supplied files for your own non-commercial purposes. Non-exclusive means we may also license the product to other customers; non-transferable means you cannot pass your licence to someone else.

You purchase permission to use the files within this licence. Copyright and other intellectual property rights are not transferred to you. Any different usage rights expressly stated in the listing before purchase or agreed with us in writing take priority over the default permissions below.

2. What you may do

You may download and save the purchased files, use them on your own devices, print them for your own personal use and keep reasonable backup copies. Private cloud storage is permitted where access is restricted to you and is not used to share the product with others.

Where a product is described as editable, you may use the editing features supplied for its intended personal purpose. Buying a non-editable product does not include a promise to supply editable source files, fonts or separate artwork assets. Any quantity or usage limit specific to a product must be made clear before purchase.

3. What you may not do

Unless we expressly agree otherwise in writing, you must not:

• Sell, sublicense, transfer or redistribute the digital files or download links.
• Share files with others or make them publicly accessible through websites, marketplaces, shared folders or file-sharing services.
• Sell printed copies, use the design on merchandise, or include it in products or services supplied to customers.
• Use the product for business, commercial or client work.
• Edit, adapt or extract artwork to create files or products for resale or redistribution.
• Claim the design as your own or remove ownership notices to misrepresent its origin.

Changes to a file do not give you ownership of the underlying design or permission to distribute it. If you need commercial, group, classroom or other use beyond this personal licence, contact us before using the product that way. Giving credit does not replace permission.

4. Copyright and customer material

We create and design our digital products. Copyright in our original designs, artwork, text and layouts remains with Ellie B Creations. Any third-party elements remain the property of their respective rights holders. You retain rights in your own photographs, wording and other material supplied for personalisation. All rights not granted by this licence are reserved, subject to rights and exceptions provided by law.

5. File access, printing and compatibility

The listing identifies the supplied format and any stated software or printing requirements. Please check these before buying and ask us if anything is unclear. Ready-made downloads are normally available after payment; digital products requiring personalisation or design work follow the stated or agreed timescale.

Keep a backup after downloading. If a file is missing, corrupted or cannot be accessed, email us with your order details and any error message. We will help resolve the problem. Printing results can vary with screens, printers, paper and settings, but this does not excuse a defective or misdescribed file or reduce your legal rights.

6. Cancellation and refunds

Digital purchases normally have a 14-day cancellation period from the day after the contract is made. To begin supply during that period and end the cancellation right, we must obtain your prior express consent to early supply and your acknowledgement that the right will be lost once supply begins. We must confirm this in a form you can save. Accepting this licence alone is not that consent.

If those requirements are not met, your cancellation rights remain. There is no blanket rule that all downloaded products are non-refundable. Our Returns & Refunds Policy explains how to contact us and when refunds are due.

Digital content must be of satisfactory quality, fit for purpose and as described. Your statutory remedies for faulty content, including repair or replacement and an appropriate price reduction where applicable, remain unaffected. This licence does not limit rights relating to damage caused by defective digital content where the law provides a remedy.

7. Misuse and ending the licence

If you breach this licence, we may ask you to stop the unauthorised use and remove unauthorised copies or public uploads. For a material breach, we may terminate the licence by written notice. Where the breach can reasonably be corrected, we will normally explain the problem and give you a reasonable opportunity to correct it first.

If the licence is lawfully terminated for a material breach, you must stop using the product and delete copies you control, except where retention is required or permitted by law. We may take proportionate action available under copyright or other applicable law. This clause does not create an automatic penalty or remove your statutory consumer rights.

8. Changes and contact

The licence supplied with your purchase applies to that purchase. Later updates do not retrospectively reduce your permissions unless a change is required by law or expressly agreed with you. The consumer protections and applicable-law provisions in our Terms & Conditions continue to apply.
